National Integrative Health

MANAGED CARE · HIGH-COST CLAIM INTERVENTION

Guaranteed Savings on High-Cost Drugs, Infusions and GLP-1s.

No upfront cost. No risk. Just results.

National Integrative Health (NIH) is a fully integrated fiduciary pharmacy program. It adds a managed-care layer to your plan, coordinating data, clinical review, sourcing, site of care, actuarial support, stop-loss strategy and reporting to create validated savings. It works with your current PBM or alongside a PBM change.

No upfront cost
No implementation fees. No PEPM or PMPM. Paid when savings are delivered.

Start any time
Implement mid-year as a voluntary network, or write Core formulary changes into plan design at renewal.

Minimal disruption
Keep your vendors and relationships. Members keep getting care.

20–30%
average savings on the medications NIH manages

50–85%
of Rx spend driven by just 5–8% of scripts

Savings are actuarially certified by the nation's top stop-loss carriers and MGUs, typically producing 5–10% discounts on stop-loss premiums.

How savings are built

1. **Core savings**
   Biosimilars, preferred products and the lowest-cost U.S. product
2. **Clinical Formulary Management**
   Provider-led clinical alternatives
3. **Assistance pathways**
   Patient, copay and foundation programs when members qualify
4. **Infusion and site of care**
   The right setting at the right price

High-Cost Pharmacy

- 7,000+ NDC formulary, including specialty, orphan, cold chain, REMS and limited-distribution drugs
- Therapeutic alternatives: coordination and formulary strategy
- Biosimilars and lowest-cost domestic sourcing, including 340B where an eligible pathway exists
- Plan design strategy and analytics

Infusion Therapies

- 50-state in-house infusion network and site-of-care coordination
- All J-codes and Q-codes (infused, injected, oral), including sub-Q medical claims
- Lower-cost site of administration, benchmarked at 100–150% of Medicare
- Single case agreements or full carve-out

GLP-1 and Managed Care

- GLP-1 access and cost management: formulary design, eligibility and engagement
- Fixed, all-in GLP-1 pricing with no rebate dependency
- Patient assistance pathways
- Prior authorization, utilization review and ongoing case management
