National Integrative Health

Managed Care and Infusion Programs

National Integrative Health (NIH) delivers fully integrated managed care and infusion solutions focused on controlling cost, optimizing clinical outcomes, and improving the patient experience.

We manage high-cost, complex therapies from end to end - leveraging a national network, advanced sourcing strategies, and site-of-care optimization to deliver lower total cost without disruption to the plan.

30% AVERAGE SAVINGS

What We Do

50-State Infusion Network

- Managed in-house by NIH's clinical team
- Direct management of providers and facilities
- Coordinating all clinical and supply chain logistics

Full Drug Access & Management

- Access to all J-code and Q-code medications
- Infused therapies
- Injectable and sub-Q medical claims
- High-cost oral medications

Cost Optimization & Sourcing

- White bagging of lower-cost medications, managed by NIH's clinical team
- Buy-and-bill rate management and contracting
- Optimized sourcing pathways to ensure lowest net acquisition cost

Flexible Implementation Models

- Single Case Agreement (SCA) for immediate impact
- Phased integration across select drug categories
- Full enterprise carveout: centralized management of all infusion therapies and integration across medical and pharmacy benefits

Site-of-Care Optimization

- Evaluation across all care settings:
  - Home infusion
  - Ambulatory infusion centers
  - Hospital / Clinic-based care
- Selection of lowest-cost clinically appropriate setting
- Seamless transitions between sites of care

Clinical Management & Patient Support

- Patient assessment and intake
- Treatment planning and coordination
- Ongoing education and engagement
- Continuous monitoring and clinical support
- Full documentation and reporting

National Integrative Health provides managed care services designed to support lower-net-cost pharmacy and medical outcomes. NIH facilitates clinical care coordination efforts only when clinically appropriate and in collaboration with treating providers. Results vary based on plan profile, contracts, and plan terms.

National Integrative Health

How the Process Works

1

Identify

Analyze claims and clinical data to identify high-cost opportunities.

2

Source

Apply advanced sourcing strategies to secure the lowest net acquisition cost.

3

Coordinate

Coordinate care, logistics, and provider alignment seamlessly.

4

Monitor

Monitor treatment and outcomes, ensure adherence, and provide ongoing clinical support.

Actual Managed Care and Infusion Cases

KEYTRUDA	INFUSION	50% SAVINGS
ULTOMIRIS	INFUSION	50% SAVINGS
STELARA → IMULDOSA	BIOSIMILAR INJECTABLE	96% SAVINGS
HUMIRA → AMJEVITA	BIOSIMILAR INJECTABLE	89% SAVINGS

Pricing Approach

100% - 150% of Medicare

- Typical pricing range
- This produces an average of 30-60% savings from commercial network rates

Guaranteed Savings

- Transparent, claim-level pricing and reporting
- Cost-plus pricing model: no implementation fee or PEPM/PMPM

Individually quoted based on all case details, inclusive of:

- Administration fees
- Coordination
- Clinical support
- Supply chain costs
